JOB DESCRIPTIONS — KEY RECRUITMENT POSITIONS

"Let Us Fulfill Your Dream Into Reality"

This document contains Job Descriptions for six key positions identified as critical for scaling Appletree Interiors operations to a structured, MNC-level organization. Each JD includes role overview, responsibilities, qualifications, KPIs, and reporting structure.

No.	Position	Department	Reports To	Priority
1	QC Engineer	Quality Control	Afsal (PM)	HIGH
2	Estimator / BOQ Specialist	Design & Estimation	Design Head	HIGH
3	Purchase Officer	Purchase & Stores	Director	MEDIUM
4	Production Manager	Operations	Director	MEDIUM
5	CAD Designer / Draftsman	Design	Design Head	MEDIUM
6	Sales Executive (Field)	Sales & Lead	Sharat / Dir.	MEDIUM

Prepared By	Appletree Interiors — Director's Office
Date	18 June 2026
Confidentiality	Internal Use Only
Review Cycle	Annually or upon role change

QC ENGINEER

ATI-JD-001 | Quality Control

Department: Quality Control

Reports To: Afsal (Admin & Project Coordinator) / Director

PRIORITY: HIGH

ROLE OVERVIEW

The QC Engineer is responsible for implementing and maintaining Appletree Interiors' three-level quality control system across raw material inspection (QC1), factory production (QC2), and site installation (QC3). This is a critical role that ensures every product delivered to a client meets the company's quality standards — protecting the brand, reducing rework costs, and ensuring client satisfaction.

KEY RESPONSIBILITIES

- Conduct QC1 inspection on all incoming raw materials — verify thickness, brand, moisture content, colour, and quantity against the Purchase Order.
- Conduct QC2 factory inspection on all finished units before packing — dimensions, edge banding, hardware fit, alignment, polish/finish quality.
- Conduct or supervise QC3 site inspection after installation — level, gaps, hardware function, finish quality, punch list, and client sign-off.
- Maintain all QC checklists (ATI-F08, ATI-F09, ATI-F10) and ensure they are fully completed, signed, and filed for every project.
- Issue QC Pass or Fail decisions — failed items are returned for rework immediately. No failed item proceeds to the next stage.
- Track rework incidents and root-cause repeated quality failures — report monthly to the Director.
- Coordinate with Raees (Modular) and Shafeer (Wood Working) on quality issues and corrective actions.
- Maintain a vendor quality scorecard — flag underperforming material suppliers to the Director.
- Train production staff on quality standards and measurement techniques on a monthly basis.
- Ensure no project is closed without a completed, signed QC3 form.

QUALIFICATIONS & EXPERIENCE

Education	Diploma or Degree in Furniture Technology / Wood Technology / Civil / Mechanical Engineering or equivalent
Experience	Minimum 2–4 years in furniture manufacturing, interior fit-out, or construction QC role
Technical Skills	Ability to read production drawings and CAD layouts. Knowledge of plywood grades, laminate types, hardware brands (EBCO, Sleek), polish finishes (PU, melamine). Proficiency with measuring instruments — vernier calliper, spirit level, moisture meter.
Soft Skills	Detail-oriented. Assertive — able to stop production when quality fails. Good documentation discipline. Clear communicator.
Language	Malayalam (mandatory). Basic English and Hindi preferred.
Location	Calicut-based. Site visits to Kannur, Malappuram, Wayanad as required.

KPIs — KEY PERFORMANCE INDICATORS

KPI	Target / Measure
QC2 Rework Rate	Less than 5% of units require rework per month
QC3 Punch List Closure	100% of punch list items closed within 3 days of handover
QC Form Completion	100% — no project closes without signed QC3
Material Rejection Accuracy	Zero accepted materials later found non-conforming
Client Quality Complaints	Zero post-handover quality complaints attributable to production
Monthly QC Report	Submitted to Director by 5th of every month

COMPENSATION RANGE

Based on experience and skills — to be discussed during interview. Competitive with Kerala interior industry standards.

ESTIMATOR / BOQ SPECIALIST

ATI-JD-002 | Design & Estimation

Department: Design & Estimation

Reports To: Design Head / Director

PRIORITY: HIGH

ROLE OVERVIEW

The Estimator / BOQ Specialist is responsible for preparing accurate, detailed Bills of Quantities (BOQs) and project cost estimates for all residential and commercial interior projects. This role bridges the Design Team and the client — ensuring quotations are competitive, profitable, and fully aligned with the project scope. Accurate estimation directly protects company margins and client trust.

KEY RESPONSIBILITIES

- Prepare room-wise, furniture-wise, and material-wise BOQs based on approved drawings received from the Design Team.
- Calculate material costs (boards, laminates, hardware, glass, paint), labour costs, transport, installation, overhead, and profit margin for every project.
- Prepare formatted client quotations in coordination with the Sales Team — clear, itemized, and professional.
- Maintain a live rate card for all standard materials and update it monthly based on current market prices.
- Compare estimated cost vs actual project cost after completion — identify variance and report to Director monthly.
- Coordinate with Vibin (Store) for current material rates and availability before finalizing estimates.
- Evaluate sub-contractor and vendor quotations — identify the most cost-effective option without compromising quality.
- Maintain a database of completed project BOQs for benchmarking future estimates.
- Support the Sales Team in preparing competitive proposals and revised quotations during client negotiations.
- Flag any scope changes (variation orders) that affect the project cost — raise a revised BOQ and get Director approval.

QUALIFICATIONS & EXPERIENCE

Education	Diploma / Degree in Interior Design, Civil Engineering, Architecture, or Quantity Surveying
Experience	Minimum 2–4 years in interior design estimation, furniture costing, or construction QS role
Technical Skills	Proficiency in MS Excel (advanced). Ability to read CAD layouts, elevation drawings, and furniture drawings. Knowledge of Kerala interior material market — plywood rates, laminate brands, hardware pricing. Understanding of manufacturing costs and labour rates.
Soft Skills	Highly analytical. Meticulous attention to numbers. Ability to work under deadline pressure. Honest and transparent in reporting variances.
Language	Malayalam (mandatory). English proficiency for report writing.
Location	Calicut office-based.

KPIs — KEY PERFORMANCE INDICATORS

KPI	Target / Measure
BOQ Accuracy	Estimated vs actual cost variance within ±8%

Quotation Turnaround	BOQ prepared within 48 hours of receiving approved drawings
Rate Card Updates	Material rate card updated on the 1st of every month
Variance Report	Monthly project cost variance report submitted by 5th of every month
Quotation Win Rate	Track and report monthly — target improvement quarter on quarter
Variation Order Processing	All scope changes documented and priced within 24 hours of instruction

COMPENSATION RANGE

Based on experience and skills — to be discussed during interview. Competitive with Kerala interior industry standards.

PURCHASE OFFICER

ATI-JD-003 | Purchase & Stores

Department: Purchase & Stores	Reports To: Director (Yaseen)	PRIORITY: MEDIUM
-------------------------------	-------------------------------	------------------

ROLE OVERVIEW

The Purchase Officer manages the complete procurement cycle for Appletree Interiors — from Material Request through to Purchase Order and vendor coordination. This role ensures that the right materials are procured at the right price, from the right vendors, at the right time — keeping production running without delays or overspending. All purchase orders require Director approval before issuance.

KEY RESPONSIBILITIES

- Receive Material Requests (MR) from Shafeer / Raees / Afsal and convert approved MRs into Purchase Requests (PR) for Director review.
- Source competitive quotations from minimum 3 vendors for every new procurement — present comparison to Director.
- Issue Purchase Orders (PO) after Director approval — ensure PO contains full specifications, quantity, rate, delivery date, and payment terms.
- Follow up with vendors on delivery timelines — escalate delays to Afsal and Director immediately.
- Coordinate with Vibin (Store) on GRN process — ensure delivered materials match PO before acceptance.
- Maintain an approved vendor list — evaluate vendor performance quarterly on quality, pricing, and delivery reliability.
- Negotiate pricing, credit terms, and bulk discounts with regular suppliers.
- Maintain complete purchase records — PO register, vendor invoices, delivery challans — in coordination with Basith (Accounts).
- Identify cost-saving opportunities in material procurement without compromising quality specifications.
- No direct purchase allowed — every purchase must originate from a documented, approved MR.

QUALIFICATIONS & EXPERIENCE

Education	Degree / Diploma in Business Administration, Supply Chain, or equivalent
Experience	Minimum 2–3 years in purchase / procurement role — preference for furniture, interior, or construction industry
Technical Skills	MS Excel and Word proficiency. Knowledge of Kerala material market — plywood, laminates, hardware, glass, aluminium suppliers. Understanding of basic material specifications.
Soft Skills	Strong negotiation skills. Organized and process-driven. Honest and transparent — zero tolerance for procurement irregularities. Good vendor relationship management.
Language	Malayalam (mandatory). English for written communication.
Location	Calicut-based. Vendor visits as required.

KPIs — KEY PERFORMANCE INDICATORS

KPI	Target / Measure
PO Processing Time	PO issued within 24 hours of Director approval

Vendor Delivery Compliance	Minimum 90% of POs delivered on committed date
Cost Savings	Achieve minimum 5% cost reduction on repeat procurement annually
Purchase Documentation	100% POs documented and filed — zero undocumented purchases
Vendor Evaluation	Quarterly vendor performance report submitted to Director
Zero Direct Purchases	Zero instances of purchase without approved MR

COMPENSATION RANGE

Based on experience and skills — to be discussed during interview.

PRODUCTION MANAGER

ATI-JD-004 | Operations

Department: Factory Operations

Reports To: Director (Yaseen)

PRIORITY: MEDIUM

ROLE OVERVIEW

The Production Manager oversees the complete factory production operation across both departments — Modular Furniture (Raees) and Custom Wooden Furniture (Shafeer). This role ensures all production targets are met on time, within quality standards, and within material budgets. As Appletree Interiors scales, the Production Manager takes operational pressure off the Director and ensures the factory runs as a professional, accountable manufacturing unit.

KEY RESPONSIBILITIES

- Plan and schedule production for all active projects — issue weekly production plans to Raees and Shafeer.
- Conduct the daily 9:00 AM production meeting — task allocation, progress review, issue resolution.
- Monitor the factory production board daily — track each item's stage and % completion per project.
- Coordinate with Afsal (Project Coordinator) on project timelines, dispatch schedules, and client commitments.
- Ensure every unit has a Production Card and travels through all stages with proper documentation.
- Manage machine capacity and maintenance scheduling in coordination with Mohanan.
- Coordinate material requirements with Vibin (Store) — raise MRs in advance to avoid production stoppages.
- Review and approve daily production reports from Raees and Shafeer before submission to Director.
- Monitor labour productivity — track daily output per carpenter and identify underperformance.
- Escalate quality issues, material shortages, or timeline risks to the Director immediately.
- Prepare a weekly production summary and monthly production efficiency report for the Director.

QUALIFICATIONS & EXPERIENCE

Education	Degree / Diploma in Production Management, Industrial Engineering, Wood Technology, or equivalent
Experience	Minimum 4–6 years in furniture manufacturing or interior fit-out — at least 2 years in a supervisory/managerial role
Technical Skills	Ability to read production drawings and CAD layouts. Knowledge of furniture manufacturing processes — cutting, edge banding, assembly, polishing. Understanding of machine capacity planning, labour productivity, and material control. MS Excel proficiency.
Soft Skills	Strong leadership and team management. Decision-maker under pressure. Highly organized. Clear communicator — can manage carpenters and report to Director confidently.
Language	Malayalam (mandatory). Basic English.
Location	Calicut factory-based. Occasional site visits.

KPIs — KEY PERFORMANCE INDICATORS

KPI	Target / Measure
On-Time Production Rate	Minimum 90% of units completed by target date

Production Rework Rate	Less than 5% of units require rework
Machine Utilization	Minimum 80% productive machine utilization per day
Labour Productivity Report	Daily report submitted to Director every evening
Material Waste	Track and reduce board wastage month on month
Weekly Production Plan	Issued to both departments every Monday 9:00 AM

COMPENSATION RANGE

Senior-level compensation based on experience — to be discussed during interview.

CAD DESIGNER / DRAFTSMAN

ATI-JD-005 | Design

Department: Design	Reports To: Design Head / Director	PRIORITY: MEDIUM
--------------------	------------------------------------	------------------

ROLE OVERVIEW

The CAD Designer / Draftsman is responsible for producing accurate, detailed working drawings and production drawings for all interior projects. This role converts concept designs and client-approved layouts into precise technical drawings that guide the factory production team. High-quality drawings directly reduce errors, rework, and production delays.

KEY RESPONSIBILITIES

- Prepare 2D CAD layout drawings — floor plans, furniture layouts, ceiling layouts — from site measurements and concept designs.
- Produce detailed elevation drawings for all rooms — kitchens, wardrobes, TV units, bedrooms, work areas.
- Create production/working drawings for the factory — with exact dimensions, material callouts, edge details, drilling patterns, and hardware specifications.
- Prepare furniture cutting lists from production drawings for the factory team.
- Update drawings after client revisions — maintain version control with clear drawing numbering.
- Coordinate with the Design Team on 3D visualization — ensure 2D drawings are aligned with approved 3D designs.
- Maintain a structured digital drawing library — all drawings filed by project code and version.
- Assist in BOQ preparation by providing accurate area and dimension data to the Estimator.
- Support site supervisors (Hashim / Noushad) with as-built drawing queries during installation.
- Complete drawing package to be issued before production begins — no production on incomplete drawings.

QUALIFICATIONS & EXPERIENCE

Education	Diploma / Degree in Interior Design, Architecture, Civil Engineering, or Furniture Design
Experience	Minimum 1–3 years in interior design drafting or furniture production drawing
Technical Skills	Proficiency in AutoCAD (mandatory). SketchUp / 3ds Max / any 3D software (preferred). MS Office. Knowledge of furniture construction — material specifications, joinery, hardware. Ability to read and interpret architectural drawings.
Soft Skills	Extremely detail-oriented. Fast and accurate. Good at following design briefs. Open to revisions without frustration.
Language	Malayalam (mandatory). English for drawing annotations.
Location	Calicut office-based.

KPIs — KEY PERFORMANCE INDICATORS

KPI	Target / Measure
Drawing Turnaround	Working drawings issued within 48 hours of design approval
Drawing Accuracy	Zero production errors attributable to drawing mistakes per quarter

Revision Turnaround	Client revision drawings updated within 24 hours
Drawing Library Compliance	100% of drawings filed correctly with version control
Cutting List Accuracy	Cutting lists must match drawings — zero discrepancy

COMPENSATION RANGE

Based on experience and software proficiency — to be discussed during interview.

SALES EXECUTIVE (FIELD)

ATI-JD-006 | Sales & Lead Generation

Department: Sales & Lead	Reports To: Sharat (BDE) / Director	PRIORITY: MEDIUM
--------------------------	-------------------------------------	------------------

ROLE OVERVIEW

The Sales Executive (Field) is the frontline revenue driver for Appletree Interiors — generating new leads, conducting site visits, building client relationships, and converting enquiries into confirmed projects. With service areas spanning Calicut, Kannur, Malappuram, Wayanad, and Palakkad, a field-active sales executive significantly expands the company's reach and project pipeline.

KEY RESPONSIBILITIES

- Generate new leads through field visits, referral networks, architect relationships, builder contacts, and walk-in follow-ups.
- Respond to all inbound leads (Facebook, Instagram, Google, WhatsApp) within 2 hours — qualify and schedule site visits.
- Conduct site visits — collect photos, measurements, client budget, timeline, and design expectations. Upload Site Survey Report after every visit.
- Present Appletree Interiors' portfolio, capabilities, and project workflow to potential clients professionally.
- Coordinate with the Design Team for concept presentations and quotation preparation.
- Follow up with prospects systematically — track every lead through CRM or lead register.
- Collect advance payment from confirmed clients and hand over to Accounts (Basith) with documentation.
- Build and maintain relationships with architects, interior consultants, builders, and real estate developers for referral business.
- Attend project handovers — ensure client satisfaction and request testimonials / referrals at handover stage.
- Submit a daily lead status update to Sharat / Director — new leads, follow-ups done, conversions, pipeline status.

QUALIFICATIONS & EXPERIENCE

Education	Any degree. Diploma / Degree in Interior Design or Business preferred but not mandatory if experience is strong.
Experience	Minimum 1–3 years in sales — preference for interior design, furniture, real estate, or construction industry
Technical Skills	Smartphone proficiency — WhatsApp, email, Google Maps for field use. Basic knowledge of interior design and furniture (will be trained). Driving license and own vehicle preferred.
Soft Skills	Highly presentable and well-spoken. Confident, persuasive, and persistent. Empathetic listener — understands client needs. Self-motivated with ability to work independently in the field. Goal-oriented.
Language	Malayalam (mandatory). English and Hindi preferred for wider client base.
Location	Calicut-based with field coverage across all Appletree service areas.

KPIs — KEY PERFORMANCE INDICATORS

KPI	Target / Measure
-----	------------------

Lead Response Time	All inbound leads responded within 2 hours
Site Visits Per Month	Minimum 15 site visits per month
Lead to Proposal Rate	Minimum 70% of site visits result in quotation
Conversion Rate	Minimum 25–30% of proposals converted to confirmed projects
Advance Collection	100% of advances collected with documentation before project kickoff
Lead Register Update	Daily lead status report submitted to Sales Head by 7:00 PM
Referral Generation	Minimum 2 referral leads per month from existing clients / architects

COMPENSATION STRUCTURE

Fixed salary + performance-based incentive on confirmed project value. Specific structure to be discussed during interview. Travel allowance provided for field coverage.
